Use of Feature Films/Videos**

The Board recognizes that showing of commercially produced and rated feature films and videos may have a legitimate purpose in the ESD's educational program. However, since the content of these feature films/videos customarily is designed for general audience viewing, the Board feels certain precautions should be taken to ensure the showing of a particular film/video is consistent with the instructional programs of the ESD.

The Board directs the superintendent to develop administrative procedures to accomplish this objective, including the provision that a parent have the opportunity to preview a film when practicably possible and that a parent must give prior consent before his/her student may view a film/video which in the professional judgment of the instructor contains potentially controversial, objectionable and/or sensitive subject matter.

All copyright laws regulating the use of such material will be strictly followed.
