

The Oregon Department of Education used the following criteria to recommend extensions, cancellations and other substantive changes to data collections.

1) Established a priority for decision making –

Priority 1: Collections tied to state or federal funding

Priority 2: Collections that directly support students

Priority 3: Collections that are solely for reporting

2) Met with Data Owners and Directors to understand impacts of extensions, cancellations or other changes.

3) Considered historical knowledge of collection burden on stakeholders

With the above information gathered, recommendations were provided to ODE leadership. The ODE leadership team worked with the legal team, legislature, and Governor's office to make the following decisions.

In order of open dates

*Indicates guidance has been or will be posted

Bold indicates new information since 5/5/20 DCC meeting
